

One of Europe's most renowned radar institutes [Fraunhofer FHR](#) cordially invites you to join us for our 9th International Summer School on Radar / SAR in July 2017. We offer the unique opportunity to gain an in-depth education on radar and synthetic aperture radar (SAR) techniques by distinguished international lecturers. Our programme covers a wide range from radar fundamentals over state-of-the-art Radar/SAR systems to sophisticated radar signal processing techniques and their applications in remote sensing.

As a student at the International Summer School you are welcome to a stimulating academic environment in a vibrant atmosphere among international radar specialists and experts. Our intellectually rewarding courses (<45 students) are accompanied by workshops, which will manifest the just learned theory, excursions as well as cultural and social events, introducing you to UNESCO's World Heritage, the Upper Middle Rhine Valley and to the famous city of Cologne.
